Chairs 4.0

Il brand BACI Milano richiama il connubio tra l'amore (Baci) e la moda (Milano è considerata la città della Moda).

L'idea è stata di sviluppare e mixare una combinazione di prodotti di design ma estremamente commerciali con lo scopo di diventare una piccola realtà sempre al passo con le esigenze di innovazione del mercato.

BACI Milano recalls the association between love (Baci) and fashion (Milan is considered the city of Fashion).

The idea was to develop and mix a combination of design and extremely commercial products for the purpose of being a small company always in step with the needs of market innovation.
